

OZONATOR™

Remove Organic Odors Permanently

The Ozonator performance features include a hermetically sealed severe application transformer designed specifically for harsh electrical and environmental demands imposed by continuous-duty corona discharge ozone generation.

The transformer is a recognized UL & CSA component. Because of its durability the warranty on the transformer is three years.

Ozone is the strongest oxidant commercially available and is a proven deodorizer. The Ozonator ozone generator doesn't just cover up foul odors; it actually destroys the molecules that cause them.

The Ozonator has a patented high-density ceramic and stainless steel electrode corona discharge system, manufactured with stainless steel probes encased in ceramic with an outer stainless steel sleeve. No place for dirt or impurities to accumulate. They are maintenance free and are guaranteed for life. No old fashioned plates to clean or corrode.

Let the Ozonator clear the air for you.

OZONATOR™

Organic Odor Removal

Applications:

- Fire Restoration; smoke elimination, removes mold, mildew, and other organic odors
- Quickly deodorizes hotel/motel, hospital, and meeting rooms
- Excellent for freshening-up cars, buses, boats, and aircraft

car care kit*

OZONATOR™

Organic Odor Removal

Features:

- Hermetically sealed patented severe application transformer
 - UL & CSA recognized component
 - Designed to support twice the ozone generation load of a conventional transformer
 - Will withstand continuous operation in the most demanding of electrical and temperature environments
- High-density ceramic & stainless steel electrodes corona system
- 2.65 grams/hr., 2,650 mg. hr.
- Effective for areas up to 40,000 cubic feet
- 30 hour programmable timer with adjustable ozone output levels
- Power supply overload protection
- Rotationally molded body with life time warranty
- Tested and proven to maintain proper activated oxygen levels
- No old fashioned plates or UV tubes to clean or break
- Three year limited warranty on transformer

Benefits:

- Severe applications transformer will provide increased operational performance and a longer service life
- Maintenance free corona discharge system provides proven constant ozone production and long service life
- High ozone output per hour increases performance and decreases time and labor
- Timer and output adjustments provide versatility and allows tailoring output for the application
- Rugged body designed to provide long life while maintaining appearance
- Consistent performance with no downtime for cleaning or reduced efficiency due to dirt or moisture build-up
- Light weight and compact for easy transportation
- Life time warranty on electrodes
- Weight - 13 lbs.
- Cord - 8 feet 16/3
- Dimensions - 22" long X 8" tall X 7" wide
